## OPPOLYPS - Océ Options™ Polypropylene Film with PSA

6.6 mil polypropylene with PSA for easy mounting and installation of indoor and outdoor graphics.

**Product Description** OPPOLYPS is an economical, water resistant polypropylene film with permanent, pressure sensitive adhesive. Whether you are printing on thermal or piezo waterbased inkjet printers, the result will be brilliant color every time. The backside PSA will simplify the mounting and installation process and the water resistant coating means you do not have to laminate when using pigment inks.

<b>Physical Properties</b>	Caliper:	6.6 mil with liner 9.0 mil	Whiteness:	85 CIE
	Adhesive:	Perm Solvent-Based Acrylic	Opacity:	>90%

**Features** Economical / Dye and pigment ink compatibility / PSA for easy mounting

**Available Sizes & Item Numbers** Sample Roll: 24" x 10'  
Available Sizes 100' Rolls: 36", 42", 50", 60"

**Recommended Storage Conditions & Shelf Life** Temperature 67°-77°F (20°-25°C) Relative Humidity 45-55%.  
Please repack opened rolls when not in use.  
6 month shelf life at conditions noted above.  
Allow material to stabilize to room conditions 24 hours before use.

**Environmental, Health & Safety** No Material Safety Data Sheet required.  
Waste not suited for recycling.

**Main Applications** Durable short-term indoor and outdoor mounted graphics

**Finishing Tips** Prints may be laminated with pressure sensitive or thermal laminate for additional scratch resistance and moisture protection when needed.

**Print Longevity** Outdoor life expectancy without noticeable fading - up to 4 months  
Indoor life expectancy without noticeable fading - up to 6 months  
\*Based on accelerated age testing. Actual results may vary based on use.

**Printer Ink/Compatibility** Compatible with most thermal and piezo waterbased inkjet printers  
Including Epson, Hewlett Packard , Canon using either dye or pigmented inks.

**Software Settings** This product will provide acceptable print image quality and dry times when used with the "colorfast vinyl" setting in most RIPs, however it is recommended that you compare the results with different settings to achieve optimum performance for your specific application. ICC Color profiles are not available for this product.
